

Powering Performance, Protecting Your *Investment*

Keep your generator running at peak efficiency with **Rehiko genuine aftermarket oils**, designed to deliver superior wear protection, extended service life, and reduced maintenance costs. Engineered for extreme operating conditions, Rehiko diesel engine oils help you maximize uptime and lower total cost of ownership.

Rehiko offers two high-performance diesel engine oils designed for industrial generator applications:

XTREME Conditions 5W-40

- ✓ Fully synthetic formulation for 20-4000kW generators.
- ✓ Provides exceptional wear protection and thermal stability.
- ✓ Optimized for mission-critical applications in extreme conditions.

XPERT Classic 15W-40

- ✓ Premium conventional oil for 20-2500kW legacy diesel engines.
- ✓ Strong viscosity control for extended engine life.
- ✓ Ideal for engines with a history of conventional oil use.

Features & Benefits for *XTREME Conditions*

Extreme Service Protection

What It Does: Reduces engine wear and corrosion, even in high-load applications.

Why It Matters: Extends engine lifespan and prevents costly downtime.

Optimized for All Conditions

What It Does: Maintains viscosity and stability in extreme heat, cold, and heavy loads.

Why It Matters: Ensures reliable performance in any environment.

Low-SAPS Formulation

What It Does: Protects modern after-treatment systems and reduces deposits.

Why It Matters: Improves emissions compliance and fuel efficiency.

Extended Maintenance Intervals

What It Does: Increases oil drain intervals, reducing oil consumption.

Why It Matters: Lowers maintenance costs and enhances operational efficiency.

Engineered for Rehiko Generators

What It Does: Developed for Rehiko industrial, mobile, and marine applications.

Why It Matters: Provides maximum protection and performance for your power system.
