

Energy Policy

Effective energy management also depends on **compliance with the law**. Rehlko complies with current regulations regarding energy and energy efficiency

Working consciously:

We are committed to ensuring that all employees are trained, informed, and aware of energy-related topics.

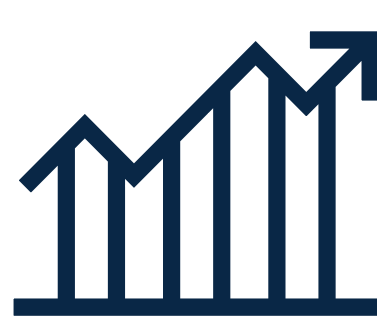

Your opinion matters!

Help us improve energy efficiency and reduce energy consumption within the company by sharing your ideas and suggestions.

We are committed to ensuring that workplaces, equipment, operational methods, and energy-related aspects are designed and managed to **minimize energy consumption**.

Together, we prevent waste through a continuous improvement mindset. Rehlko has set a group-wide goal to **reduce greenhouse gas emissions** generated by its activities by 90% by **2045**.

We consciously purchase more efficient products and services and promote initiatives to **improve the energy performance** of products and processes.
