

Plug into *better*

Keep your generator ready with Genuine Rehlko Batteries. Contact your Rehlko distributor today to find the right battery for your application.

Safety

AGM batteries are non-hazardous, completely sealed, and maintenance-free, requiring no fluid level inspections, our batteries help minimize the risk of accidents.

Sustainability

Zero-waste products with 99.3% recyclable components. In fact, lead-acid batteries have a 99% annual recycling rate, making them one of the most recycled products in North America, even more than aluminum cans.

Rehlko Reliability.
Generator batteries you can *count on*.

Engineered for *dependable power*

Genuine Rehlko batteries are designed to help ensure your generator starts when power matters most, reduce maintenance requirements, and provide confidence in critical power situations.

Engineered to maximize uptime in **critical and severe-duty applications**. Delivers **reliable, maintenance-free power** with exceptional **vibration resistance, at extreme temperatures**. Also features a non-spillable design.

- **Heavy-duty batteries** for severe service that charge faster, last longer, and withstand extreme vibration and temperature.
- **Dryfit® sealed valve-regulated design** eliminates battery gassing, reducing maintenance and avoiding unnecessary service calls.
- **UN2800 certified** for safe, worry-free operation with simplified shipping and handling.
- **36-month warranty.**

Engineered **for dependable performance** when failure is not an option. Provides consistent performance in **extreme temperatures, continuous float-charging environments, and rigorous duty cycles**.

- **Powerful Duracast design** provides performance, longer life, and better reliability for critical applications.
- **Designed to tolerate high vibration.**
- **Designed for performance in extreme temperatures.**
- **24-month warranty.**

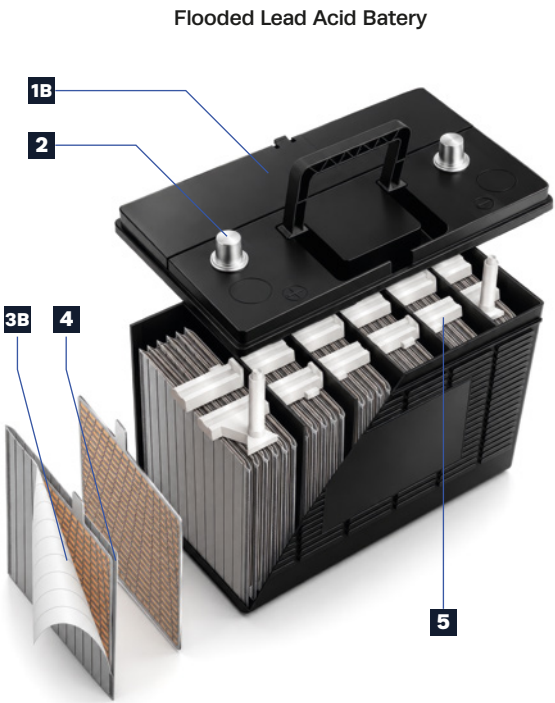

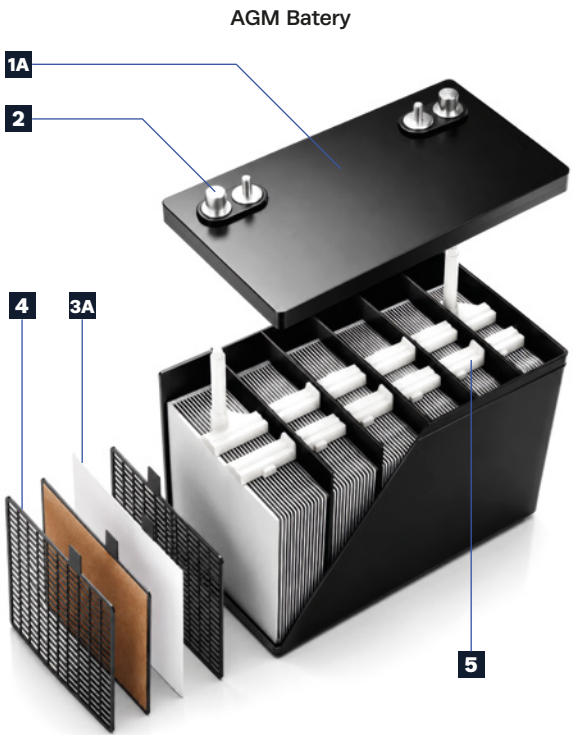

Designed to maximize equipment readiness in critical starting applications. Delivers **dependable on-demand starting power** to help keep operations running smoothly.

- **Powerful Duracast design** delivers high performance, longer life, and greater reliability.
- **Higher Cold Cranking Amps (CCA)** for superior starting power.
- **Designed to withstand high vibration.**
- **18-month warranty.**

Designed for reliable **performance for everyday operations**. Ideal for mobile and smaller generators.

- **Reliable internal combustion starting.**
- **On-demand power**, maintenance-free operation, and easy installation and handling.
- **12-month warranty.**

Why choose a Rehlko *battery*?

Designed specifically for Rehlko generators, our batteries deliver reliable starting power, maintenance-free operation, and long service life in demanding environments.

Rehlko Battery Features		Xtreme AGM	Xtreme	Xcell	Xpert
1	PowerLock PowerLock cover design provides clean, maintenance-free operation and easy fitment.	●	●	●	●
1A 1B	AGM batteries are sealed and certified non-spillable. Durable recessed handle ensures safe handling and installation.	●	●	●	●
2	Innovative Terminals Heavy-duty terminals resist corrosion and optimize durability and efficiency in tough operating environments.	●	●	●	●
3A	AGM Separator Ultra high-strength glass mat separator with advanced composites for efficient electrolyte absorption and distribution, enabling superior deep-discharge recovery and high-efficiency charging.	●	●	●	●
3B	DuraWrap DuraWrap separators can reduce maintenance needs and prevent failure due to short-circuiting and plate shedding. Plate construction enables maximum performance and durability.	●	●	●	●
4	DuraCast Grid Full-frame DuraCast grids utilize uniform wire thickness for improved active material retention for longer life and greater reliability.	●	●	●	●
5	Tough Connectors Thicker terminal post connectors deliver premium performance and increase electrical efficiency.	●	●	●	●
	Increased Battery Capacity More capacity is key for challenging applications.	●	●	●	○
	HardPack Cell Design Unmatched power tolerates brutal temperature and vibration.	●	●	○	○
