Introducing the Cellular Kit

Introducing the *New* KOHLER® Cellular Kit

Stay Connected to Your Generator With Confidence

It's here: the ultimate solution for reliable generator connectivity. The innovative Kohler Cellular Kit ensures seamless communication with your generator, allowing you to monitor it remotely without interruption. Consider it the perfect backup plan.

Remote Monitoring for Peace of Mind

With the integration of cellular connectivity, homeowners can remotely monitor their Kohler generator, ensuring continuous oversight and peace of mind. This feature is particularly valuable during utility power outages or when Wi-Fi connectivity is lost. By utilizing cellular networks, you can stay updated on your generator's performance and quickly address any potential issues.

Equipped With a Massive Network

The Kohler Cellular Kit ensures continuous connectivity by utilizing a vast network of cellular providers, automatically switching to a different provider if one becomes unreliable. It includes data plans from the two largest cellular providers and numerous regional providers to guarantee consistent, seamless connectivity.

Easy Generator Add-On

Quick and easy to install, taking only 15 minutes to set up. With an initial 1-year cellular data plan, homeowners can experience the benefits of cellular connectivity with their generator year-round.

Need Support? We're Here for You.

You have your dealer and KOHLER customer support readily available to answer all your questions.

The Kohler Cellular Kit comes with these installation materials:

- Cellular router
- Embedded sim with 1 year* cellular data plan
- Two antennas
- Mounting kit
- Ethernet cable
- Power cable
- Connector

Additional resources can be accessed through the QR code on the label.

*This plan only covers data usage with generator connectivity. Renewals are not automatic. Please contact your dealer to renew your plan.

Available for any generator with an RDC2 controller, including RESVs, RCAs, RCLs, RESAs, RESCs

Part Number: GM123330-KP1-QS
